

Recycled accessories GO BEYOND THE TRADITIONAL WEAVING

Be yourself – Be unique
Be Eco-Be Ethic

IT'S NOT THE SAME

ELEGANT
ETHIC

100% HANDMADE

* E-MOI accessories come from collaboration with different partners (cooperatives/ artisans) in shanty towns in Asia (Philippines, Thailand, Vietnam...), which allow us not only to help these people, especially women, become more financially independent, but also to promote many local traditional handmade know-hows.

* Our designs are exclusive; 100% handmade; each piece is beautiful and unique on its own combination of colors and materials.

Variety of choices with over 200 designs

Up to date, E- MOi is able to offer to its clients over 200 designs of recycled bags and jewelries from different recyclable materials.

Our recycled accessories are made from variety of materials:

- Papers from all kinds (magazine, newspaper, photocopies/ office papers...)
- Food orFruits juice packagings (aluminium paper)
- Jeans pants
- Soda can pop tab
- Left-over leathers

Why recycled materials?

- We believe that our mother earth have limited resource. If we don't know to preserve and use it properly, we can have big difficulty in the future. Tons of wastes are thrown to the landfill month without taking into account that many of them will take hundreds of years or even longer to be decomposed in soil ...
- We strongly believe that by recycling many existing materials, we can avoid exploiting too much new resouces to produce new products for our needs.
- Recyclable materials nowadays are found everywhere: plastic bottle, food and drink packagings, soft drink pop tabs, papers...
